

Incident Report – Ticket #CS-0248

1. Alert Details

- **Category:** Email gateway – External Emails Targeting Cybersecxperts domain
- **Alert Date & Time:** 2025-01-07 17:45:14 -08:00
- **Sender Email:** Cybersecxperts.com Administration <postmaster@hdr-nlb7-aebd5d615260636b.elb.us-east-1.amazonaws.com>
- **Recipient Email:** info@cybersecxperts.com
- **Sender IP:** 52.101.194.10
- **Status:** Delivered
- **Action:** Allowed
- **Reason:** NA

2. Email Summary

- **Subject:** MailBox Requesting Authentication! For info@cybersecxperts.com
- **From (Impersonated):** Cybersecxperts.com Administration
- **Actual Sender:** <postmaster@hdr-nlb7-aebd5d615260636b.elb.us-east-1.amazonaws.com>
- **To:** info@cybersecxperts.com
- **Time:** 2025-01-07 08:00:00
- **Sender IP:** 52.101.194.10
- **Delivery Status:** Delivered & Allowed

3. Email Content & Threat Indicators

- Message attempted to impersonate mailbox authentication notification.
- Included phishing links requesting user credentials:
 - <https://bafybeietpey3dhxq55w6cxjunu6pb2jpjslmcmauy2dxbrwbep3oxsgfpq.ipfs.dweb.link/?filename=vback.html#info@cybersecxperts.com>
 - <https://ipfs.io/ipfs/QmbLx77Yuv7pnHnic5VhY35YYoiRA9UA5xoSWtBB5GdCq/sammilinsammiling.html>

Indicators of phishing: urgency for login, spoofed sender domain, use of IPFS storage URLs.

4. Impacted Users

- **Sneha Kapoor** – Clicked phishing link and submitted credentials.
- **David Patel** – Clicked phishing link (no credentials submitted).
- **Info Alias** – Received phishing email.

5. URL Analysis

- **URL:** `dweb.link` → Category: Proxy Avoidance / File storage-sharing
- **URL:** `ipfs.io` → Category: Proxy Avoidance / File storage-sharing

6. Log Analysis

Email Logs:

- Jan 7, 2025: Phishing email received from spoofed domain.
- Oct 11, 2024: 3 additional spoofed phishing emails received from import@hugoboss.cloud-ip.biz.

Proxy Logs:

- Sneha Kapoor: Accessed malicious URL, credentials submitted (POST method, HTTP 200).
- David Patel: Accessed malicious URL (GET method, HTTP 200).
- 10 other users attempted to access `dweb.link` via search; blocked (HTTP 403).

VPN Logs:

- No login events observed for Sneha Kapoor post-incident.

7. IOC Scoping

No further related malicious activity observed.

8. IOC Summary

- **Domains:**
 - `dweb.link`
 - `ipfs.io`
- **Malicious Senders:**

- import@hugoboss.cloud-ip.biz
- postmaster@hdr-nlb7-aebd5d615260636b.elb.us-east-1.amazonaws.com

9. Actions Taken

- **User Containment:**
 - Reset Sneha Kapoor's credentials; terminated active sessions.
 - Security awareness briefing conducted for Sneha Kapoor & David Patel.
 - Interviewed 10 users who attempted access; reinforced policy compliance.
- **Technical Controls:**
 - Blocked domains `dweb.link` & `ipfs.io` at proxy level.
 - Blocked senders at email gateway.
 - Reviewed & blocked additional malicious web categories.

10. Conclusion & Impact Assessment

- **Classification:** True Positive (Phishing – Credential Harvesting)
- **Impact:** Credential theft attempted, but mitigated. No systemic compromise observed.
- **Remediation:** Completed.
- **Ticket Status:** Closed.
