

Incident Report

Ticket ID: CS-0234

1. Incident Details

- **Detection Source:** Email Gateway – Suspicious External Emails Targeting Corporate Domain
- **Alert Date/Time:** 2024-04-23 03:25:10
- **Sender (Spoofed):** Microsoft Sharepoint
- **Actual Sender Address:** dariana@trangthino.cfd
- **Sender IP:** 193.239.86.150
- **Recipient(s):** info@cybersecxperts.com, david.patel@cybersecxperts.com, ajay.joshi@cybersecxperts.com
- **Delivery Status:** Delivered & Allowed

2. Email Summary

- **Subject:** *Purchase Order Ref: 64167*
- **From (Spoofed):** Microsoft Sharepoint
- **Actual Sender:** dariana@trangthino.cfd
- **Time of Delivery:** 2024-04-23 10:39:00
- **Threat Type:** Phishing (Credential Harvesting)

3. Threat Indicators

- Email contained a **fake purchase order notification** impersonating Microsoft SharePoint.
- Embedded **phishing URL** leading to a fake login page:

<https://jjjjjefta.github.io/.../?mail=ajay.joshi@cybersecxperts.com>

- Landing page hosted on **GitHub Pages** (jjjjjefta.github.io).
- Secondary malicious domain observed: **bird-rattle-sundial.glitch.me**.

- TTPs: Credential Harvesting → Attempted VPN Access → MFA Blocked.

4. Impacted Users

- **David Patel** – Entered credentials on phishing site.
- **Ajay Joshi** – Received phishing email (no credential submission).
- **Info Alias** – Received phishing email.

5. Log Analysis

Email Logs

- April 23, 2024 – Phishing emails delivered to David Patel, Ajay Joshi, and Info Alias.
- April 04, 2024 – Previous phishing attempt from noreply@cybersecexperts.com.

Proxy Logs

- David Patel accessed phishing URL and submitted credentials (**POST 200**).
- Follow-up access to domain **bird-rattle-sundial.glitch.me** observed.

VPN Logs

- Attacker attempted login with stolen credentials from IP **45.159.112.214**.
- Authentication blocked by **MFA failure** (OTP mismatch).
- No successful VPN access or lateral movement observed.

6. IOC Summary

- **Phishing Domains:**
 - jjjjjefta.github.io
 - bird-rattle-sundial.glitch.me
- **Malicious Sender Emails:**
 - dariana@trangthino.cfd
 - noreply@cybersecexperts.com
- **Suspicious IPs:**
 - 193.239.86.150 (phishing email sender)
 - 45.159.112.214 (VPN login attempt)

7. Response & Actions Taken

Credential Reset: David Patel's credentials reset; all active sessions terminated.

URL Blocking: jjjjjefta.github.io & bird-rattle-sundial.glitch.me blocked at proxy.

Email Blocking: Malicious sender addresses blocked on Email Gateway.

Firewall Update: Source IP 45.159.112.214 blocked.

User Awareness: Impacted users notified and guided to avoid phishing links.

8. Conclusion & Impact Assessment

- **Classification:** True Positive – Confirmed Phishing & Credential Theft Attempt
- **Impact:**
 - Credentials of David Patel briefly compromised.
 - No system compromise observed.
 - VPN misuse attempt prevented by MFA.
- **Final Assessment:**

Attack was **contained** successfully. No data exfiltration or internal compromise confirmed.
